

Computer Network Technologist II (HITS) – Fort Carson, CO

Requisition Unique ID (R0001301)

Job description

Phoenix Logistics, Inc. is currently seeking applicants for a Computer Network Technologist II position at Fort Carson, CO. This position is in support of the Army Training Aids, Devices, Simulators and Simulations (TADSS) Maintenance Program (ATMP) Contract for the Homestation Instrumentation Training System (HITS). Please apply if you are a current incumbent employee on Warfighter FOCUS.

Key Responsibilities

The Computer Network Technologist II position works in support of the Homestation Instrumentation Training System (HITS) network and equipment. Key responsibilities include:

- ✓ Performs configuration changes, system backup and restore, troubleshoots, and user account administration
- ✓ Maintains system operational availability, supports installations, develops solutions to technical issues, works with in-plant engineers to resolve discrepancy reports, provides on-the-job training to the system operators and supports Unit maintenance tasking
- ✓ Provides technical support of VMware systems

This position may require travel to other installations and other ATMP locations throughout CONUS and OCONUS.

Basic Qualifications

BS with Computer or Systems Engineering related major and four years of relevant experience OR AS and 8 years' experience OR 12 years of equivalent military and/or civilian experience in lieu of a degree.

Four years of applicable experience including experience with and/or knowledge of:

- ✓ In-depth knowledge of Red Hat Linux Operating System
- ✓ Basic knowledge of Windows Server 2008
- ✓ Basic knowledge of Windows 7
- ✓ Bash shell language
- ✓ Host-client relationships
- ✓ Network design and configuration

Previous experience working with the US Military is also required.

Desired Skills

- ✓ Experience with or knowledge of Distributed Common Ground System (DCGS) operations and VMware highly preferred
- ✓ Experience with MarkLogic databases
- ✓ Experience with Puppet or remote configuration management tools
- ✓ Certification in Security + - DoD 8570 Certification
